

FMX Futures Exchange, L.P.
SOFR Futures Contract Market Maker Incentive Program
Submission #2026-02
January 14, 2026

Via Electronic Portal

Christopher J. Kirkpatrick
Office of the Secretariat
Commodity Futures Trading Commission
Three Lafayette Centre
1155 21st Street, N.W.
Washington, D.C. 20581

1. FMX Futures Exchange, L.P. (“FMX” or the “Exchange”) hereby certifies to the Commodity Futures Trading Commission (“CFTC” or “Commission”) the attached amendment to the U.S. Secured Overnight Financing Rate Futures (“SOFR”) Futures Contract Market Maker Incentive Program of FMX (“Program”) in accordance with CFTC Regulation 40.6(a). The purpose of the amendment is to (1) adjust the termination date of the Program and (2) implement amended Program terms and incentives effective on or after trade date February 2, 2026.
2. The proposed effective date of the amendment to the Program is on or after trade date February 2, 2026.
3. Attached please find a certification that: (1) this rule complies with the Commodity Exchange Act and the Commission’s regulations thereunder; and (2) concurrent with this submission, the Exchange posted on its website: (i) a notice of pending certification of this rule submission with the Commission; and (ii) a copy of this submission.¹
4. A concise explanation of the amendment to the Program appears below.
5. No opposing views to this amendment to the Program were expressed to FMX.

=====

¹ See <https://www.fmxfutures.com/rules-notice/exchange-notice/>. Capitalized terms used but not defined herein shall have the meanings given to such terms in the FMX Rules, and references to “FMX Rules” or an “FMX Rule” refer to such rules.

A CONCISE EXPLANATION OF THE AMENDMENT TO THE PROGRAM, INCLUDING CORE PRINCIPLES.

The Exchange is certifying amendments to the Program which are summarized below:

1. **Extension of Program Term to August 1, 2026:** The amendment serves to change the existing Program's termination date originally ending April 1, 2026, to a termination date of trade date August 1, 2026.
2. **Implement Amended Program terms and incentives effective on or after trade date February 2, 2026:** For avoidance of doubt, FMX Submission 2026-02 has no effect on the Program terms and incentives which apply for the ongoing Program calendar month of January 2026, as detailed in FMX Submission 2025-29. Effective on or after trade date February 2, 2026, and following written notice to Program participants, the amended Program terms and incentives, including amendments to the quotation and volume component terms and incentives and the elimination of the open interest component terms and incentives, summarized in Exhibit II will apply.

The amendments to the Program are intended to further support the growth and development of trading and volume of the Exchange's SOFR market.

Attached to this document is Exhibit I, which reflects a summary of the amended Program's terms and incentives intended to take effect on or after February 2, 2026, and Exhibit II, which reflects the amended Programs' terms and incentives intended to take effect on or after February 2, 2026. Additions are underlined and deletions are struck through.

Portions of Exhibit II are being provided to the Commission on a confidential basis, and the written detailed justification for such confidential treatment is included in an associated request for FOIA confidential treatment.

FMX has reviewed the core principles for designated contract markets set forth in Section 5 of the Commodity Exchange Act and in the Commission's Part 38 Regulations thereunder ("Core Principles"), as well as the FMX Rules. Based on its review, FMX has identified the following Core Principles as relevant to its assessment of these changes to and continuing operation of the Program:

- **Core Principle 2, Compliance with Rules.** FMX believes that the Program amendments will not adversely affect its ability to perform its trade practice and market surveillance obligations.
- **Core Principle 3, Contracts Not Readily Susceptible to Manipulation.** FMX believes that the Program amendments will not cause the contracts it lists to be readily susceptible to manipulation.
- **Core Principle 4, Monitoring of Trading.** FMX believes that it will be able to monitor and surveil trading on the Exchange effectively, including trading by Persons or groups of Persons who have applied to be admitted into the Program, have been accepted in the

Program by the Exchange, and are subject to the terms of the Program (“MMIPPs” or “Qualified Market Makers” and each, an “MMIPP” or “Qualified Market Maker”).

- **Core Principle 7, Availability of General Information.** FMX is making information about the Program available to the Commission, its regulatory services provider, all Participants, Customers, and the public.
- **Core Principle 9, Execution of Transactions.** FMX believes that the Program amendments do not give rise to incentives that will adversely affect its ability to execute orders for all Participants.
- **Core Principle 12, Protection of Market Participants.** Trading by MMIPPs will be subject to the requirements of the FMX Rules, which have been designed to ensure the protection of the market and market participants.
- **Core Principle 16, Conflicts of Interest.** The activities of MMIPPs will be subject to the Exchange’s regular monitoring and surveillance processes and the requirements of the FMX Rules, including FMX Rule X-10, Conflicts of Interest.
- **Core Principle 18, Recordkeeping.** The Program is subject to the Exchange’s record retention policies, which have been designed to achieve compliance with applicable CFTC recordkeeping requirements.

The terms of the Program and eligibility to participate in it have been established in accordance with Rule VI-1(a) and Rule XII-12 of the FMX Rules.

By its terms, the Program does not affect order execution priority on the Exchange or otherwise give MMIPPs any execution preference or advantage. In addition, Chapter XIV of the FMX Rules requires the active monitoring of the Exchange for trading abuses. FMX’s Control Desk monitors activity on the Exchange for disruptive trading. Both the Exchange’s Surveillance Department and its regulatory services provider review for manipulative and other abusive trading practices. Chapter XIV of the FMX Rules also provides for the Compliance Department to conduct investigations and to bring disciplinary measures as warranted.

CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY EXCHANGE ACT,
7 U.S.C. §7A-2 AND COMMODITY FUTURES TRADING COMMISSION RULE 40.6, 17
C.F.R. §40.6

I hereby certify that:

- (1) The rule as attached complies with the Commodity Exchange Act and the Commission's regulations thereunder; and
- (2) Concurrent with this submission, FMX Futures Exchange, L.P. posted on its website, <https://www.fmxfutures.com/rules-notices/exchange-notices/>: (a) a notice of pending certification of this rule submission with the Commission; and (b) a copy of this submission.

Exhibit I

Summary of Program Terms

Market Maker Incentive Program of FMX Futures Exchange, L.P.: Three Month SOFR Futures Contract

Program Purpose

The purpose of the Market Maker Incentive Program (the “Program”) is to draw market makers to the FMX Division of the FMX Futures Exchange, L.P. (“FMX” or the “Exchange”), and grow volume and open interest in the U.S. Secured Overnight Financing Rate (“SOFR”) Futures Contracts (“Program Contracts”) traded on the Exchange. The increased trading volumes and open interest that the Program is reasonably expected to generate will benefit all Exchange Participants and Customers.

The Exchange may announce additional information about and changes to the Program on its website from time to time, including offering additional incentive programs in the future. This Program, subject to compliance with CFTC rules and regulations, may be altered, modified, supplemented, amended or terminated at any time by the Exchange.

Program Scope

The Program will provide incentives for such Program Participants to submit bids and offers to the Exchange and to develop liquidity, volume, and open interest in Program Contracts. The Program seeks to reduce volatility, promote price discovery, and ensure that a bona fide, deep and liquid market develops in Program Contracts.

Qualification for the program will be based on the Exchange’s assessment of the application for the Program submitted by any applicant. The Exchange will review each application it receives to assess the applicant’s experience making markets in futures contracts, ability to support robust quotation of bids and offers and meaningful open interest in Program Contracts, and any additional factors that the Exchange determines to be appropriate from time to time.

Eligible Program Participants

There is no limit to the number of participants that may enroll in the Program.

Program Requirements and Incentives

In order to be eligible to receive incentives, Program participants must quote in the Program Contracts and meet predetermined requirements set forth in Exhibit II. Upon meeting the

Program obligations, as determined by the Exchange, Program Participants will be eligible to receive predetermined Program incentives as set forth in Exhibit II.

Program Term

This program is intended to extend for a successive term ~~of three months~~ ending [August 1, 2026](#), ~~April 1, 2026~~, or such other date on which the Exchange may determine to modify, extend, or terminate the Program, based on its assessment of whether the Program has achieved the Exchange's goal of ensuring that a bona fide, deep and liquid market develops in Program Contracts. Program Participants will be provided notice of any changes to the Program Term.

Monitoring and Termination Status

FMX will monitor the trading activity of each Program participant to ensure that its activity on the Exchange complies with the requirements of the Rules of the Exchange. If FMX has reason to believe that a Program Participant has violated or is violating any FMX Rule, the Exchange may take disciplinary action against the Program participant in accordance with the Rules of the Exchange.

In addition, the Exchange will retain the authority to modify the Program's terms based on extreme volatility, pricing dynamics, or other market-related events.
